

ABOUT QUINTA DA FONTE

When it was launched in 1995, Quinta da Fonte was one of the first office parks to understand the need to connect both high quality real estate and its 'countryside' surroundings. Its pioneering concept allowed Quinta da Fonte to stand out from the coldness of traditional glass office towers.

Today the "Quinta" has been significantly upgraded to better cater to those who use it on a daily basis. It has evolved the office park concept to fully meet the needs of companies and their teams, providing the very important work-life balance that we all aim for.

Inspired by its very own particular surroundings, Quinta da Fonte has raised the office park concept to a business ecosystem.

**QUINTA
DA FONTE**
business ecosystem

Quinta da Fonte is located in Oeiras, halfway between Lisbon's city centre and Cascais. Oeiras attracts a significant proportion of Portugal's leading companies and it is building on its reputation as an innovation and development area. In addition, Oeiras also boasts a 10km coastline, comprising 4 public beaches and landmarks of cultural interest.
